Scope of services and solutions

Grupa BTIS | Together for a Clean Tomorrow

Together for a Clean Tomorrow

GRUPA BTIS

 **BART Sp. z o.o.** - Your Trusted Partner for Design-Build and General Contracting, with Excellence in Sanitary and Industrial Installations

BART Sp. z o.o. has been operating in the industrial investment market for over 20 years. It offers investors “design and build”, and general contracting services, specializing in sanitary installations, particularly process dust removal systems, ventilation, air conditioning, and refrigeration systems for manufacturing companies across a wide range of industries.

The company implements “Clean Air Engineering” solutions that support environmental protection and create a clean, healthy, and friendly microclimate in the workplace. To achieve this, it utilizes its own technologies as well as those from esteemed partners, both European and global.

The range of engineering services provided includes design with the selection of technologies and equipment, delivery and assembly on the construction site, installation of industrial systems, their commissioning and validation, as well as extensive construction services. In addition to construction, the company offers warranty and post-warranty service for installed filter ventilation systems and provides maintenance advice.

For many years, BART has been comprehensively implementing projects in the field of Cleanrooms and related controlled environments, focusing on dust concentration and microbiological cleanliness.

BART Sp. z o.o. is a member of the **BTIS Group | BT Industrial Solutions.**

SCOPE OF SERVICES OFFERED BY [BART Sp. z o.o.](#)

COMPREHENSIVE IMPLEMENTATION OF INVESTMENTS IN THE "DESIGN AND BUILD" FORMULA.
GENERAL CONTRACTING.

DESIGN OF INDUSTRIAL INSTALLATIONS, SELECTION OF TECHNOLOGIES AND EQUIPMENT.
